## PERSIA BOWS TO RUSSIA'S WILL

Forced to the Wall, Persian Parliament Dismisses W. Morgan Shuster

### ACTION TAKEN UNDER THREAT OF OCCUPATION

Anti-Russian Demonstrations In Teheran—The Persians Would Resist Russia

TEHERAN, Dec. 22.—Yielding to the determined attitude of Russia in forcing invasion into its territories, the Persian government today dismissed from power, W. Morgan Shuster, the American who has been acting as treasurer-general of the country in putting its finances on a basis which, it believed, would soon remove the necessity of Russian control.

Only after the most positive representations from the Russian government did the Persian parliament act. It was finally represented that nothing but the expulsion of Shuster would prevent an occupation of the country by Russia, and at the last moment the Persians yielded.

Anti-Russian demonstrations of the most violent nature are proceeding here and the streets are thronged with mobs demanding armed resistance to the advance of Russia. Persons suspected of pro-Russian tendencies are being hourly attacked and the police are unable to quell the rioting.

Tabriz reports say that both Russians and Persians suffered many casualties and that fighting in the outlying sections of the city is still progressing.

## GRIFFITHS MADE ATTACK ON HENRY

Linked His Name With Adrian as Tugging at the Pillars of American Patriotism

SACRAMENTO, Dec. 22.—In scathing denunciation in what he referred to as the "un-American" teachings of Professor Adrian of Santa Barbara, Assemblyman W. B. Griffiths of Napa today referred to Francis J. Heney as "one of the higher-ups" in the ranks of those who are tugging at the pillars of American patriotism.

The occasion for the attack was the adoption by the lower house of Boynton's senate concurrent resolution relative to the rebuke of Adrianism.

"I not only believe that Adrian should be rebuked, but that the names of higher-ups should be included in this resolution," thundered Griffiths. "It should include the man who at the last regular session stood in the senate chamber and defamed the constitution in connection with his advocacy of judiciary recall. He defamed the founders of the constitution, and that man is not a good citizen. I refer to Francis J. Heney."

Heney is in Sacramento today, but was not in the assembly at the time his name was linked with that of the Santa Barbara professor who asserted among other things that the stamp act of England against which the American colonies rebelled, was justified, and who cast aspersions against the early patriots of America.

Her bathing suit was wondrous fine. Till Myrtle, careless pet, While promouncing by the brine Fell in and got it wet.

—Washington Star.

The names with which we designate some things are merely silly. The hottest thing I ever ate Has been misnomered chili.

—Spokane Spokesman Review.

## Burying Enemy Alive—Thought Him to Be Dead

OAKLAND, Cal., Dec. 22.—Attempting to bury alive Carl Bischoff, whom he struck on the head with a hatchet, and supposedly killed, Alfred Bloom was halted by the police as he was digging his victim's grave in the basement of his home. Both he and Bischoff are in jail today.

In a fight between them, Bloom won, and thinking he had killed his opponent, he carried the unconscious form into the basement with the assistance of his wife. It is the belief of the police that if they had not arrived in the nick of time, Bischoff would have been buried alive.

### Bulletins of News

Hot from the wire up to 3:30 p. m.

#### THE WEATHER

Fair tonight and Saturday. Light northeast wind.

#### Rear Admiral Luce

at Newport Home

NEWPORT, R. I., Dec. 22.—Rear Admiral Stephen B. Luce, U. S. N., retired, well known as the founder of the naval war college here and the originator of the present system of training apprentices for the naval service, is ill at his home in this city.

#### 10-Pound Turkey

For Taft's Christmas Dinner

WASHINGTON, Dec. 22.—A turkey from Rhode Island, intended for the President's Christmas dinner, arrived at the White House yesterday. It weighed forty pounds.

#### Long-Time Stage

Star Suicided Today

NEW YORK, Dec. 22.—Lying on the floor of the kitchen of his apartments here, with his head thrust in the oven of a gas stove, the dead body of Walter Lowell, known on the stage as Wright Lowell, who starred for years in the "Shepherd King," was found today by his friends. He had suicided by inhaling gas, and had been dead for hours.

#### Jack Johnson

"Comes Back" to U. S.

NEW YORK, Dec. 22.—Jack Johnson, heavyweight champion pugilist of the world, returned to America last night on the steamship Kronprinzessin Cecelia, and stated emphatically he had not retired from the ring.

#### President Estrada

Of Ecuador Died Today

GUAYAQUIL, Ecuador, Dec. 22.—President Emilio Estrada died suddenly here today. He took office on the first of January, 1911.

#### Dye Works Driver

Hit by Santa Fe Train

PASADENA, Dec. 22.—R. B. Downs of Los Angeles, a driver for a dye works, sustained a fractured skull when a local Santa Fe train struck his wagon near Pasadena city limits today. His condition is critical.

#### Arizona Sheriff

Killed Man in Saloon Bout

GLOBE, Ariz., Dec. 22.—Sheriff Henry Thompson of Globe, today shot and killed Michael Jurasco, in the Globe saloon. Both men had been drinking, it is alleged. Thompson was jailed.

## DR. LYMAN SENT TO McNEILL'S ISLAND PRISON; 18 MONTHS

SAN FRANCISCO, Dec. 22.—Eighteen months in the Federal prison at McNeill's Island was the sentence dealt out here today by Federal District Judge DeHaven to Dr. John Grant Lyman, the Los Angeles "get rich quick" promoter, for breaking Federal custody. C. M. Courtwright, the guard whom Lyman induced to connive at his escape, was sentenced to six months in jail.

Tommy de Peyster—My brother made ugly faces at you yesterday and you didn't dare to fight. You pretended you didn't notice 'im. Eddie Tufant—I didn't either. I thought they was natural.—Chicago News.

## MAKES CHANGES CALLS FOR BIDS IN VARIOUS PRECINCTS HIGH SCHOOL SITE

No Additional Divisions in Santa Ana. But Three Lines Moved

### ORANGE IS GIVEN FOUR ADDITIONAL

Resolution passed Fixing New Lines For a Number of Voting Sections

The Board of Supervisors this morning passed a resolution that adds fifteen precincts to the forty-four precincts of the county. No changes were made in supervisory districts, and none will be made at this time.

The changes made today were according to the suggestions of the supervisors, each supervisor for his town district. Fullerton was changed from two precincts to three, and Olinda is now Olinda and Brea. Anaheim is four precincts instead of two, the two streets that cross in the center of the city being the inside boundaries of the four precincts. West Anaheim was divided into two precincts, West Anaheim and East Anaheim.

Orange was raised from two to six. El Modena is now two precincts, El Modena and McPherson, and Olive is two, Olive and Villa Park. Tustin has two precincts, and Newport is in two, Newport and Harper. Westminster was cut in two, Westminster and Wintersburg, and Garden Grove has two precincts.

While no precincts were added to Santa Ana, Supervisor Smith recommended, and the board approved, three changes in precinct boundaries. Part of the third precinct was put into the fourth. A division line that has been on Seventeenth street was moved down to Washington. Part of the sixth was placed in the fifth, which has been much the smaller of the two, in voting population. The line between the two precincts will be along the Pacific Electric tracks, running north and south, instead of along Hickey street. A part of the ninth precinct was added to the tenth, by making the boundary line along Barton street instead of Flower.

These changes in precincts will mean fifteen additional central committees on the various county central committees. In Santa Ana the changes in boundaries may mean the change of one or more county central committees, since it is possible that the boundary changes make a man a resident of a precinct other than the one he represents.

**Petitions Granted**  
The petition of A. C. Williams and H. C. Powell for pipelines were granted.

H. L. Wakeham, Ernest Bear and County Surveyor McBride were appointed viewers of the W. S. Babb road.

A map of the Laguna Heights tract, No. 3, was accepted.

**\$400 for a Show**

The supervisors voted to provide \$400 for an exhibit at the Land Show in connection with the exhibits of the Southern California Panama Exposition Association. W. W. Wilson is Orange county's representative in the association.

### EGG LINING TAKES PLACE OF HUMAN SKIN IN GRAFTING

PHILADELPHIA, Dec. 22.—Discovery by Dr. Max Staller, surgeon at Mount Sinai Hospital, that the white lining or membrane of eggshells can be used with success as a substitute for human skin in grafting operations, may revolutionize the methods of treating burns and scalds.

Experiments have been made at the hospital for a period of more than three months, and in every case the victims of burns have been benefited.

In one case a woman was so fearfully burned that doctors believed she would not live through the operation. The new treatment proved successful and she will soon be able to leave the hospital.

School Board Sets January 9 As the Date for Opening Proposals

### POLY GROUNDS NOT LESS THAN TEN ACRES

Canvass of Vote Makes No Change in the Unofficial Returns

The Board of Education yesterday afternoon set Jan. 9 at 7 o'clock as the time for opening bids for sites for the polytechnic high school and the new grammar school in the southern part of the city. The only restrictions placed upon the bids for the polytechnic high school is that the site shall not be less than ten acres and shall be inside the city limits. The restrictions placed upon the grammar school site is that it shall be south of Bishop street and near Main street, and shall be inside the city limits.

The school board discussed the appointment of an architect to draw plans for the polytechnic high school, but no final decision was reached. The decision will probably be reached at a meeting to be held next Tuesday evening.

The returns of the bond election, held on Dec. 14, were canvassed yesterday afternoon. No changes were made in the figures of the unofficial returns, which were: For the \$25,000 common school bonds, 1637; against, 314. For the \$200,000 polytechnic high school bonds, 1419; against, 521.

The proper resolutions declaring the bonds carried were passed.

When the school board meets next Tuesday evening it will receive a report concerning the levy that the school board has in the sale of the school bonds. It is a question as to whether it is advisable to sell the entire issue of \$200,000 at this time, or to sell the bonds as the money is needed.

The school board yesterday afternoon passed the following expression of thanks:

"The Board of Education takes this opportunity to express their deep appreciation to the ward committeemen, Dr. C. D. Ball, Hon. John N. Anderson, Dr. G. H. Dobson, P. L. Tope and S. J. Jackson; to Mrs. Horace McPhee and Mrs. John Swann and T. E. Stephenson of the public utility committee; to the Elade, Register and Bulletin; to all who acted as deputies in registering the ladies; to all the school children who gave their assistance; to Mr. Lynn Shaw in particular, for his valuable assistance, and to all others who assisted in any way in voting the school bonds."

## FRUIT MEN SEEK UNIFORM RATES

Authorize Committee to Work For Carload Schedule on Deciduous Fruits

SANTA ROSA, Cal., Dec. 22.—Fruit men today are seeking to secure a uniform twenty-thousand minimum carload lot schedule to all destinations for deciduous fruits.

The California Fruit Growers' Association, in session here, has authorized its transportation committee to take up the matter with the State Railway Commission. A one-dollar rate to Chicago and common points will be asked when the matter is taken up with the Interstate Commerce Commission.

**Burbank's Talk on Cactus**  
Luther Burbank has given the association most startling information on the possibilities of the cactus plant, claiming it will yield material for a waterproof whitewash and for a durable paint.

## A Christmas Carol

"What means this glory round our feet,"  
The Magi mused, "more bright than morn?"  
And voices chanted clear and sweet,  
"Today the Prince of Peace is born."

"What means that star," the shepherds said,  
"That brightens through the rocky glen?"  
And angels, answering overhead,  
Sang, "Peace on earth, good-will to men."

'Tis eighteen hundred years and more  
Since those sweet oracles were dumb;  
We wait for Him, like them of yore;  
Alas! He seems so slow to come.

But it was said in words of gold,  
No time or sorrow e'er shall dim,  
That little children might be bold,  
In perfect trust to come to Him.

All round about our feet shall shine  
A light like that the wise men saw,  
If we our willing hearts incline  
To that sweet Life which is the Law.

So shall we learn to understand  
The simple faith of shepherds then,  
And, kindly clasping hand in hand,  
Sing, "Peace on earth, good-will to men."

For they who to their childhood cling  
And keep their natures fresh as morn,  
Once more shall hear the angels sing,  
"Today the Prince of Peace is born."

—James Russell Lowell.

## GRAND JURY MAKING SUGGESTIONS TODAY

Statement Made to Supervisors That Drug Supplies Ought to Be Let Out to Bids--Inquiry Concerning Indigents

The grand jury and the Board of Supervisors met this morning, and again this afternoon, for a discussion of methods and policies. There were some things the grand jury wanted to know about, and explanations were given. Suggestions and explanations were received and given.

Members of the grand jury inquired into the system of caring for indigents. The supervisors stated that without a county hospital the system of having a list of indigents with an allowance monthly from the county and a county physician to care for them was the only feasible method. Supervisor Leck stated that supervisors have begun systematically to cut down the indigent list.

Supervisor Smith stated that the county needs a county hospital and poor farm and he thought the county at that way could care for its poor at less expense than now. Medical attendance would be better. At present patients are scattered all over the county.

A member of the grand jury stated that he thought it ill-advised to give cash to indigents, particularly to Mexicans. In the discussion of items in regard to the care of the poor, it was brought out that for cases of emergency the county allows pay for physicians called in place of the county physician. C. S. Hubbard, a member of the grand jury, had a note-book of figures gathered by him. He stated that the county in the last year paid out \$200.50 on emergency bills.

Foreman Holbrook, Mit Phillips and others of the grand jury stated that they believed the county ought to let its drug business out to bids. Phillips said he thought that a county physician could estimate beforehand nine-tenths of the drugs he would want in a year's time.

Chairman Talbert of the Board of Supervisors showed very plainly that the county physician ought to be allowed to get his drugs at a Santa Ana drug store.

"While I would like to aid a drug store at Huntington Beach, where I live," said Talbert, "yet it would cost as much to get the orders of drugs from there here as the drugs are worth."

Hubbard stated that the bulk of the county's drug trade has been going to one drug store in Santa Ana. Supervisor Smith stated that it was

the understanding when County Physician Wehrly was appointed that the drug business be divided up as much as possible.

**Will Heat Jail**  
A. E. Stockslager called attention to the fact that there is no provision made for heating the insane cell in the county jail.

"The hoboes have a comfortable room," said he, "but the upstairs cells have to depend on oil stoves for heat. You can't put an oil stove in the room with an insane person. There ought to be some way of heating that cell."

Chairman Talbert said he had never known that the condition existed, and he for one would favor immediate action to relieve the condition.

Stockslager stated that he was advised by the district attorney that the board has power to compel the removal of a hedge on North Main street at the corner of Chapman.

Stockslager said the hedge hides the view, and the turn is dangerous. Supervisor Struck said he had taken the matter up with the owner and the owner said he would not take \$200 for the hedge. The hedge is two feet from the road line. Struck said it has not been settled whether or not the county could compel the removal of the hedge. Stockslager suggested that the turn be widened in some manner to make it safer.

**More About Jail**  
A. K. Cravath stated that in his opinion a jailer takes risks of his life every time he goes into the felony ward in the county jail.

"There ought to be an arrangement of levers that can be worked from the outside," he said. "Sometimes some jailer is going to get killed, because some of those fellows charged with felonies will risk their own lives for freedom."

Deputy Sheriff Squires agreed that the condition is dangerous.

"Since Thanksgiving Day we have heard that threats have been made that the prisoners would attempt to lay the jailer out and escape. Since then we have nearly always had two men on hand every time that door is opened."

Buy him a pipe for Christmas. Special sale this week at the Smoke House, next to Bell Theater.

Dr. H. M. Robertson, Physician and Surgeon. Office Cor. Third and Main, opposite City Hall. Both Phones.

## DEADLOCK IS NOT EVEN SHAKEN

Reapportionment Matter Seems Apparently Doomed to Remain Unadjusted

### FRISCO DELEGATES AND OTHERS IN SOLID PACT

Country Committee Believes Pact Halts Compromise—Cost of Session

SACRAMENTO, Dec. 22.—After a night of wrangling in the senate, long argument in committees, and sitting behind locked doors, the California Legislature awoke this morning to find the prospect of an agreement as to reapportionment, apparently as far off as ever.

Senator Thompson announced at the morning session that he had hoped by delaying action until today, to get the Assembly to present a definite proposition. Wolfe fought for an immediate vote on the Thompson committee substitute for the assembly scheme. Delay was finally conceded.

This morning the San Franciscans, who are seeking to prevent the adoption of any bill, declare that the Senate will not allow the San Francisco delegation be made less than fourteen assemblymen. Thompson intimated that the city might be compelled to accept 13. A joint conference is now necessary.

A senate majority leader said this morning there would be no congressional reapportionment if the senate finally adjourned tomorrow night.

Either there will be a further session next week or the state will elect three congressmen at large in 1912.

From the viewpoint of the assembly leaders, the situation looks utterly hopeless today. It is had from reliable source that unless San Francisco gets seven senators and fourteen assemblymen, the Bay City will invoke the referendum and will thus manage to retain its present representation at the February, 1913 session, because a referendum election would not be held until November, 1912, and would not go into effect until ninety days thereafter.

A compromise measure on reapportionment could be passed in assembly today, believe prominent "County Club" members, but over in the senate there exists a pact among the San Francisco delegates and other pro-city senators signed by twenty-four members. It is understood, which the peace-makers thus far have been unable to break.

### SPECIAL SESSION COST BY TOMORROW EVE WILL HAVE REACHED \$70,000

SACRAMENTO, Dec. 22.—Up to tomorrow night the special session of the California Legislature will have cost the state approximately \$70,000. Of this the salary bill for members is \$37,000 for twenty-seven days for 120 senators and assemblymen at ten dollars daily. Senatorial mileage costs was \$1659.40, and assembly mileage, \$2069.20. The staff salaries have been \$200 daily in each house. The printing bill will total twenty thousand dollars. Some \$500 was spent in the contingent expense items.

## OPEN SHOP POLICY FOR 160,000 COTTON MILL EMPLOYEES

MANCHESTER, England, Dec. 22.—One hundred and sixty thousand employees in the English cotton mills here must submit to the "open shop" policy or be locked out, according to official notification given them by mill owners today. The notification says this policy becomes effective next Wednesday.

Order your figs, raisins, nuts, dates, bulk mince meat and other delicacies for Christmas at the Union Grocery, corner Fourth and Spurgeon streets.

## COUNTIES PLEDGED TAXES FOR BIG FAIR

Orange County Has Promised  
to Raise \$1500 For 1915  
Exposition

SACRAMENTO, Dec. 21.—State Controller A. B. Nye has issued a statement showing the estimated amount of taxes which the counties have promised to raise for exhibits at the Panama-Pacific exposition. The counties not mentioned have not acted, and figures are as follows: Amador, \$3127; Calaveras, \$3604; Contra Costa, \$17,019; Eldorado, \$3294; Fresno, \$36,853; Glenn, \$8503; Humboldt, \$14,078; Imperial, \$3564; Kern, \$16,128; Kings, \$6092; Lake, \$2193; Madera, \$3437; Mariposa, \$1596; Mendocino, \$8498; Merced, \$7239; Napa, \$7509; Orange, \$1500; Placer, \$5252; Riverside, \$4624; Sacramento, \$27,765; San Bernardino, \$10,574; San Diego, \$29,950; San Joaquin, \$19,050; San Luis Obispo, \$2341; San Mateo, \$16,982; Santa Clara, \$41,947; Shasta, \$2342; Siskiyou, \$8692; Solano, \$12,557; Sonoma, \$17,525; Stanislaus, \$9996; Sutter, \$2080; Tuolumne, \$3532; and Yuba, \$3876.

## ARCHBISHOP IRELAND FIFTY YEARS A PRIEST

ST. PAUL, Minn., Dec. 22.—Amid scores of congratulatory messages, cablegrams and costly presents, Archbishop John Ireland yesterday observed the fiftieth anniversary of his ordination to priesthood.

Under the strict orders of Archbishop Ireland there was no celebration of the anniversary in the churches of St. Paul, but it was impossible for the archbishop to prevent his friends and admirers from expressing their esteem.

## SANTA MONICANS PROTEST OVER LOSS OF BIG FAST CARS

SANTA MONICA, Dec. 22.—Seaside residents who have occasion to make frequent trips between the sea and the city, are formulating a protest to the Southern Pacific, objecting to the policy of its Pacific Electric omicrons in taking off the beach runs all of the big fast cars, which were bought by the Los Angeles Pacific for the convenience of the heavy traffic. Gradually the big fast cars are disappearing to go onto Pasadena runs, and soon none will be left here. Their places are being taken by old narrow coaches from the Watts local and Redondo runs. Travelers complain that with these coaches it is not possible to make fast time, and frequently the flyers are as much as thirty minutes late.

## AMERICANS WILL ESTABLISH BANK FOR NICARAGUA

NEW YORK, Dec. 22.—The first banking institution organized by Americans with United States capital in Central or South America is soon to be established in Nicaragua. The confirmation of the plan awaits ratification of the Nicaraguan treaty by the Senate when that matter comes up in Washington in a few weeks.

It is said that a charter of incorporation would be applied for, the authorized capital being put at \$5,000,000. One of the chief functions of the bank, it was said, will be the handling of the business of the \$15,000,000 loan which is to be made to Nicaragua for the rehabilitation of its finances, if the treaty is adopted.

## HELPFUL HINTS FOR HOUSEHOLD PROBLEMS

Jewelry can be successfully cleaned by washing it in hot soapsuds in which a little ammonia has been dissolved. Shake off the water and lay the jewelry in a small box of fine sawdust to dry. This method leaves no marks or scratches of any kind. To wash brushes and combs, put a teaspoonful of ammonia in a basin of hot water and dip the brush up and down in it, letting the comb remain in the water for a few minutes. In this way all the grease will disappear and, after rinsing in cold water, both brushes and combs will be perfectly clean.

The best way to clean patent leather shoes is, after removing all the dirt, to wipe them over with a soft cloth dipped in milk. Polish with a dry cloth, and you will have bright polish, besides preserving the leather.

## California: It's History and Romance

By JOHN S. McGROARTY

## BOOK that you will SIT UP NIGHTS to READ

It is a one-volume story of the most wonderful state in the world told in the language of a poet. Every phrase is a song; every statement is a fact. It thrills and thrills and thrills.

Eloquent, yet concise; beautiful, yet solid; fascinating, yet instructive; it contains all that is essential and is a portrayal of California by the Golden State's most gifted and best loved writer.

Adapted to youth, middle-aged and elderly persons alike, it meets the universal demand of all for a single-volume history of California. It is very valuable to the student, not only for the knowledge it contains but also as a study in word-painting and phraseology.

This work has been reviewed and passed upon by the most eminent historians and literary critics of California, to their complete satisfaction.

In one volume, thoroughly indexed, beautifully illustrated, splendidly bound and printed in good readable type, it is the most valuable book on the Holiday counter. Be sure that some member of your family receives it as a Christmas remembrance in order that it may have a place in your home.

Written by a Californian, published by a California House, it fulfills in every respect your choicest demand. Sold at all bookstores, or address

### RICHESON IS WORSE OFF THAN THOUGHT

Prison Authorities Hastily  
Summon Doctor—Pastor  
Is Suffering

BOSTON, Dec. 22.—That Rev. C. V. T. Richeson, the minister who mutilated himself in his prison cell while waiting trial for the alleged murder of his former sweetheart, Avis Linnell, is in a much worse condition is admitted by the prison authorities and other officials. The injured clergyman passed a restless night, and Dr. Lothrop, who assisted in performing the operation necessary after the infliction of the wound, was hastily summoned. The turnkey says Richeson was delirious after the operation. When Richeson was returned to his cell he kept calling: "Avis, Avis." A police inspector and stenographer went into his cell during his delirium and took down what he said, says the turnkey.

Charles Pierce, an instructor in the Newton Theological Seminary and a former roommate of Richeson, was arrested today after refusing to appear in the district attorney's office to answer questions they intended putting to him concerning the minister. It developed at noon today, following a second visit to Rev. Richeson by Dr. Lothrop that the minister was considerably worse. Neither Dr. Lothrop nor Sheriff Seavy deny that Richeson is now hovering between life and death. Heroic efforts are being made to prevent blood poisoning from setting in. Richeson is so weak that it is thought dangerous to remove him to an infirmary.

#### NOTICE FOR BIDS

For Sites for Grammar School House and High School. Notice is hereby given that the undersigned Secretary of the Board of Education and High School Board of Santa Ana School District and Santa Ana High School District will receive bids for school lots and a site for a High School until the 30th day of Jan. 1912 at 7 p.m. The site for the Grammar School house shall be south of Bishop street and near Main street. The site for the High School shall be not less than ten acres. All to be within the corporate limits of the City of Santa Ana, the school and High School district. The Board reserves the right to reject any and all bids, and re-advertise for the same.

LYDIA C. SMART, Secy.

Finest line of Christmas cigars in town, boxes at 50c and up. The smoke House, next to Bell Theater.

### FIVE CANDIDATES FOR APPOINTMENT

Three Applications Already  
Filed for Job Left by  
F. W. Heard

Three applications for appointment as policeman to succeed F. W. Heard, who has been appointed a constable of Santa Ana township, have been filed with City Clerk Tedford. These three are F. A. Wiley, John Pugh and J. A. Preston. It is understood that L. H. Hill, superintendent of the former Santa Ana policeman, are candidates for the appointment. The city trustees will make the appointment on the night of Jan. 2 unless a special meeting is called for the purpose of making the appointment before that time.

### THEY ONLY LOOKED ON.

Johnny is Disgusted at Cowardice of Schoolmates.

Johnny, who lives on the south side, hasn't been to school long, but he already holds some peculiar views regarding the administration of his particular room.

The other day he came home with a singularly morose look on his usually smiling face.

"Why, Johnny," said his mother, "what's the matter?"

Johnny snorted. "I ain't going to that old school no more," he fiercely announced.

"Why, Johnny," said his mother reproachfully, "you mustn't talk like that. What's wrong with the school?"

"I ain't goin' there no more," Johnny replied, "an' it's because all th' boys in my room is blamed old cowards!"

"Why, Johnny, Johnny?"

"Yes, they are. There was a boy whisperin' this mornin', an' teacher saw him an' bumped his head on th' desk ever an' ever so many times. An' those big cowards sat there an' didn't say quit nor nothin'." They let that old teacher bang th' head off th' poor little boy, an' they just sat there an' seen her do it!"

"And what did you do, Johnny?"

"I didn't do nothin'; I was th' boy!"—Cleveland Plain Dealer.

#### Human Nature.

"Why are you putting a danger sign here before the ice forms? You surely can't tell now where the ice will be thick or thin."

"Yes, I can," answered the park functionary. "The ice is always so thick and strong at this point that if I didn't put the sign in before freezing weather I'd never be able to get it in at all."

"Then why place the sign here?"

"'Cause it's around the danger sign that everybody wants to skate," he explained contemptuously.—Buffalo Express.

#### Daniel and the Lions.

And it came to pass that Daniel was cast into the den of lions by order of King Darius.

Early the next morning King Darius went to the den, rolled away the stone and called out, "Do the lions bite?"

"Not unreasonably," replied Daniel, who was well up in the legal vernacular of the day.

"Good," ejaculated King Darius as he rolled back the stone. Thereupon he went forth and proclaimed to the multitude that the lion question had been solved.—Puck.

#### They Slept.

"So you actually went to church last Sunday?"

"I really did."

"Excuse me if I seem skeptical. What was the text?"

"Aha, I have you there! The text was, 'He giveth his beloved sleep.'"

"Good work. And who were there?"

"All the beloved, it seemed to me."—Cleveland Plain Dealer.

#### It Really Was.

"Why can't I get my number?" demanded a prominent citizen of Painted Post.

"Line's busy," replied the telephone girl.

"I don't believe it."

"Well, it's so, just the same. Some cowboys have borrowed it to hang a horse thief with."—Washington Herald.

#### But It Doesn't Work.

Mrs. Knicker—Does your husband rage when he gets the bills?

Mrs. Becker—Yes, though I always place them face down, just as the waiters do.—Harper's Bazaar.

#### Irresponsible Youth.

Lady—Why do you cry, little boy?  
Little Boy—That—durned—mother o' mine—'as gone—an' lost me—again!—Black and White.

#### Their Condition.

"Do you approve of baby shows?"  
"Sir, in my experience I have found them to be mostly crying evils."—Baltimore American.

#### Unrest.

They lay the asphalt pavement down  
And level it with care.  
The purpose is to make the town  
A thing of beauty rare.  
As soon as it has hardened in  
The wind and sun and rain  
They get a pickaxe and begin  
To dig it up again.

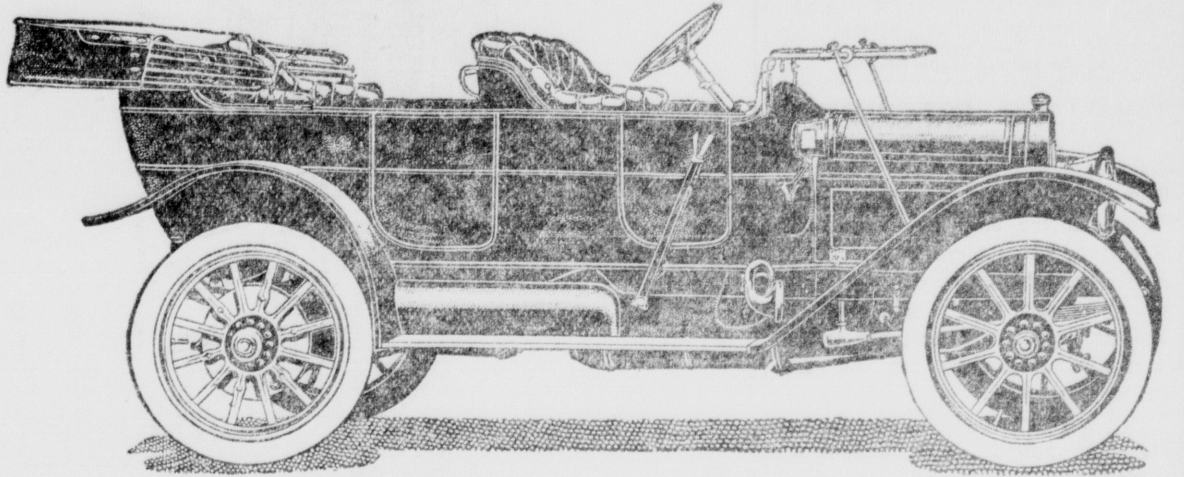

They lay it smoothly down once more;  
Again they tear it loose  
And then replace it as of yore,  
Fit for the public use.  
And those who travel seem to be  
Like ocean farers lost.  
The street is but a mighty sea,  
Forever tempest tossed.  
—Washington Star.

# MILES SHOE COMPANY

Arrow-  
Head  
Hot  
Springs

An  
Ideal  
Place  
For a  
Week-  
End

The Hotel is under new management—Mr. C. C. Oswald, formerly with Fred Harvey, is in charge—an assurance of a royal welcome and every courtesy shown to all guests.

The cuisine is unequalled anywhere. A Fred Harvey chef, trained in that noted service, fulfills the every requirement of those who visit this beautiful Hotel. His dishes fairly build you up like magic and they, with the ideal outdoor conditions existing here, make for health and a real enjoyment not to be found in every resort.

Everything possible is done at all times to promote the pleasure and comfort of all guests. Courteous treatment and a general good service of watchfulness and consideration for your wants are only a part of the satisfaction which will come from a visit to ARROWHEAD HOT SPRINGS.

## Rheumatic and Asthmatic Sufferers

Few places in the world are better equipped to take care of patrons suffering from Rheumatism, Neuralgia or Asthma and if you are a sufferer you could not do better than to plan a few days' stay here.

Here at ARROWHEAD HOT SPRINGS, where valley and mountain give you a chance to "hit the trail" and venture into the canyons and onto the peaks, health simply thrusts itself upon you. The baths in the waters of the hottest natural springs in the world only add to the wonders of Nature in making you tingle with new strength and a rosate, sound bodily vigor.

For autoists, good roads and easy grades offer miles of pleasure drives. A fireproof garage is here for guests.

At night, Billiards, Cards, Reading Rooms, Music and Dancing, Wednesday and Saturday evenings.

For those who want to take the baths there is a large outdoor plunge, Mud Baths and natural steam caves.

This Hotel has its own supply of fresh eggs, milk, pork, veal, vegetables, fruits and berries, besides those wondrous dishes which only our Chef can prepare for particular people.

Terms—\$3.00 per day and upwards. Reservations and other information address ARROWHEAD HOT SPRINGS CO., Arrowhead, San Bernardino County, California.

## A Valuable Christmas Gift COMMONWEALTH HOME BUILDERS STOCK PAYS CASH INCOME EVERY 3 MONTHS

A never failing income which comes promptly and regularly every three months to every person holding Commonwealth Home Builders stock. Become a stockholder yourself, today, in this successful and rapidly growing company. Stock is now selling for 30 cents per share and the price will soon increase. \$30 cash will buy 100 shares. \$300 cash will buy 1000 shares. \$1500 cash will buy 5000 shares. Two important facts for you to carefully consider. First—the ever increasing value of your original investment. Second—a cash income every three months from your investment. A gift of Commonwealth Home Builders stock for Christmas is an acceptable and lasting present, one that would greatly increase in value as the years sped on. Since organization last March, over 2300 persons have become stockholders in our company. Every person who held our stock on December 1st participated in the quarterly dividend of 3 per cent par value. Drop a card to our Santa Ana agent and he will send you our free book on Co-operation. Every person should read this valuable book.

## SOCIALISTIC EXPERIMENT EXPENSIVE

The two years of Socialistic government in the city of Milwaukee has shown conclusively that Socialistic government is an expensive luxury. It appears that it has cost half a million dollars a year more to run the municipal government of Milwaukee during the past two years than at any previous time in its history. The new Socialist budget for the city calls for the expenditure of one million dollars more than the last budget before the Socialist regime began. The rate of increase in expenditures is rather more than four times the normal rate of increase before the Socialists got possession of things.

Here are some of the manners in which money has been spent without return. A bureau of economy and efficiency was created and supported at an expense of \$20,000 a year which has thus far failed to point the way toward the saving of anything like as much as it has cost to operate the bureau. The city payroll has expanded \$40,000 over the highest mark reached under "corrupt capitalistic" control of the government. The city has had to borrow \$200,000 to pay salaries and wages until the next tax collections become available.

The courts have added somewhat to the troubles of the Socialists, but not to the disadvantage of the taxpayers, it may be added. They have declared illegal salary payments to the amount of \$14,000, which amount Mayor Seidel has bound his party to pay. The tax rate has increased materially.

To all these charges the Socialists reply that they have not had time as yet to put into effect the reforms which are to result in greater economy and increased efficiency in the municipal government, and claim that, given another two years' lease of power, they will show results. Perhaps the people of Milwaukee will be satisfied with the showing and will give them another chance to make good, as they have signally failed to do up to this time. Perhaps, and more likely not.—Pasadena News.

## A SHINING EXAMPLE

With a population of 7500, Grand Junction has spent \$750,000 in one year for public improvements and is pleased with the results.

Like Santa Ana, the city is situated in a rich fruit country, has a suburban population greater than that within the corporate limits and is growing rapidly.

Two years ago Commission Government was adopted under a charter prohibiting the construction of public work by contract. Hence all of the improvements have been done by the direct employment of day labor under the supervision of Mayor Thomas W. Todd and the Commissioners.

Paving operations alone have cost \$150,000. The paving is of cement, the mixing being done by an up-to-date mixing plant. The sewer system cost \$25,000, which is \$7000 less than the amount of the bonds authorized for the purpose. The greatest improvement of all is a mountain water system that cost \$450,000, of which \$210,000 was for the purchase of the supply. The main pipe line is twenty miles long, eleven miles of steel and nine miles of wood. This will be completed about May 1, 1912.

## CONTROL OF OCCUPATIONAL DISEASES

A summary of legislation on occupational diseases, by Mr. John B. Andrews, secretary of the American Association for Labor Legislation, appears in a recent issue of The Journal of the American Medical Association. While it may not be gratifying to our pride as a nation to know that the oldest law we have on this subject is less than one year old, it is encouraging to know that during 1911 six states (California, Connecticut, Illinois, Michigan, New York and Wisconsin) passed laws requiring reports on diseases resulting from occupations. The diseases that must be reported are anthrax, compressed-air sickness, and poisoning from lead, phosphorus, arsenic and mercury. This is only a beginning, but through the co-operation of sanitarians, economists, physicians and labor unions, such a law should be enacted in every state. Publicity, the remedy which has been so effective in curing other social ills, will make short work of occupational diseases, once the extent of their ravages is known.

When you're trying to think of something to give a man for Christmas think of this man's store; we'll help you all we can.  
Store Open Evenings.

"Get the Habit"—trading with

W. A.  
HUFF

those days needed drastic treatment. Nothing was sacred to them. They profaned the Holy of Holies.

We have their counterparts in the Morgans, Rockefeller, Sages and other hypocritical plutocrats of these days. Morgan heads a trust to spread the gospel by systematic business methods. He affects to believe that the altruistic teachings of the lowly Jesus can be diffused through a card-index system.

Never! The churches are already weakened by business methods. The divine emotions of the religion of the Man of Nazareth are not born of cash registers and column footings. The sublime strains of an uplifted soul are not set to the clink of gold. Jesus contended mere gain. The modern Caesars, the Morgans and Rockefeller, may exact their tribute of a groaning people, but when they seek to Christianize their wretched exactions, coined from blood and sweat, from breaking heart and darkening mind, they are as those ancient profaners of the temple whom Jesus whipped from its precincts.—Riverside Enterprise.

Why not get the best?

## "101 RANCH" PERFORMERS FOR ROSE TOURNAMENT

VENICE, Dec. 22.—A contract was signed today between the 101 Ranch Wild West show and the Pasadena Floral Tournament directors where-

by the former will send to Pasadena, January 1, a number of their Indians, cowboys and cowgirls to take part in some of the races which have been arranged for that day. The pick of the amusement aggregation will be selected.

## PACIFIC TELEPHONE CO. PAYS BIG SUM TO PASADENA

PASADENA, Dec. 22.—"We are not Shylocks, but we want all that's coming to us," remarked City Attorney Carr last evening at the city hall as he displayed a check for \$534.59 which he collected today from the Sunset Telephone Company for two years' interest on that part of the \$31,930.15 paid yesterday which applies to back, franchise taxes. This is said to be the last of the money due the city from the telephone company.

## FAMOUS FIELDS OF POPPIES MAY BE OBLITERATED

PASADENA, Dec. 22.—The famous poppy fields of Altadena are in a fair way to be wiped out of existence if plans for the sub-division of the northeast section into homesites materializes. A local agency is negotiating for the purchase of the land while residents of the city are talking of getting up a subscription to save the noted landmark.

## CURRENT COMMENT

(Riverside Press)

The Pacific Monthly, which has been developed into a highly creditable publication, has been forced to suspend, after its promoters sunk \$300,000 in the venture. The subscription list has been sold to the Sunset. It seems to be a very hard proposition to secure sufficient advertising to make the publication of a magazine possible on this coast. Sunset is backed by the passenger department of the Southern Pacific and that fact has made its success possible.

The movement for public improvements is developing strongly in the city of Hemet. A bond issue for sewers is now pending and it is confidently expected that the \$20,000 asked for this purpose will be authorized. There is also a movement for street paving and some of the good work done in Riverside has recently been inspected by the Hemet trustees. This work will be done under the Vrooman act and the property owners seem to be very enthusiastic over the proposition. Sewers and good streets are among the first essentials for the growth and development of a city and Hemet people will do well to adopt both of these improvements.

Woodland, the county seat of Yolo county, voted dry last April, but the majority against saloons was only 36 and the saloon advocates were not satisfied and wanted to try it again. Accordingly they forced a special election under the provisions of the new state local option law. Meanwhile, however, the woman had been enfranchised, and 500 of them went to the polls and voted. The result was that the "dry" majority was increased from 36 to 312, or nearly 10 times. That will settle the saloon question in Woodland for a while all right; the saloon people will not care to go up against that majority very soon.

A Press reader has brought to this office a clipping from a Vermont paper which gives a summary of the weather experienced in that New England state during the month of November. There were only four clear days and rain or snow fell on 17 days. The temperature during the month went as low as six degrees or 26 below freezing. Californians who have been objecting to the surplus of northerners which we have been experiencing this fall should read these returns from Vermont and be thankful.

The Ventura county supervisors have let the contract for the new courthouse for which that county recently voted bonds. The contract went to a Los Angeles concern at \$42,850. The building will be completed during the coming year and when finished will be one of the finest boasted by any one of the smaller counties of the state. Lompoc has just shipped a full train load of mustard seed—20 cars. The rapid settlement of the country in that part of Santa Barbara county is rapidly diminishing the area in mustard and this season's crop will probably not be duplicated again.

## PLACENTIA

Orange Co., Cal.

You don't pioneer when you move to Placentia. That stage of this new packing and shipping town was past six months ago.

With the building of the Santa Fe's new main line east through the famous Placentia district, Placentia Township came into existence as a business center for this thickly settled and wealthy community. The orange growers built five large packing houses to handle the production. (Three more packing house sites have been procured.)

Placentia today, twenty-six miles from Los Angeles is a thriving go-ahead town with all city conveniences, such as bank, hotels, large stores, newspaper, lumber yard, garage, etc.

Placentia will not stay a town; that is inexpressive of its future. Placentia, the center of a district equal to Riverside and Redlands, must be a city. Already there are over a thousand people dependent on Placentia as a distributing point, which makes for active business.

An ideal climate, beautiful surroundings, good water, and plenty of work in all lines, produce perfect living conditions. Placentia offers unexcelled opportunities for Merchandising, Home-making or Investment.

## REMEMBER

Placentia Township is over one-half sold out. Yet you can still buy at the original prices and on the original terms.

Let us show you both the Possibilities and the Actualities at Placentia. Do not select land for a home or investment until you have seen Placentia.

### Christmas Tree

Last night the Sunday school children of the Church of the Messiah enjoyed an unusually pretty Christmas tree in the basement of the church at the corner of Seventh and Bush streets. This was the first time that the basement has been used, it but recently having been completed in the remodeling of the church. Candles, electric lights and sparkling fire added to the beauty of the trees, and to the delight of the little ones, all of whom were remembered with gifts and candy. Rev. Wotton gave a short talk on Christmas spirit, and singing completed the program. A supper was served to the children at 6 o'clock.

### Congregational Exercises

The Christmas exercises of the Sunday school room of the Congregational Sunday School will be held tomorrow night at 7 o'clock at the church.

### Christmas Program Tonight

The program for the Christmas exercises of the First Methodist Sunday School to be given tonight at the church at 7 o'clock, promises to be an interesting one. The various recitations mentioned in the program, are all to be given in costume and will be typical of different activities of the church. The Christmas spirit to be presented is that of giving. The program follows:

Marching in of Primary Pupils.  
Song—"Joy to the World".....School Prayer.  
Song.....Primates  
Recitation.....Mary Himstreet  
Address.....Mrs. S. M. Davis  
Exercise—"David and Margaret Home"  
Christmas Carol.....Intermediate Boys

Can you think of anything more useful or profitable as a Christmas present than a term of lessons in the Orange County Conservatory of Music? Let us make that membership card for you right now, only tomorrow left, you know.

Don't forget the premium for all who enroll on or before January 10th, 1912.

504½ N. Main St. Main 214

## Personals

Mrs. E. M. Staplin, 839 Ross street, returned yesterday from an extended business and pleasure trip of four months in the East, touching Janesville, Wis., Columbus, O., Richmond, Va., and other eastern points while away.

Prof. Eggen was among the teachers who went to Los Angeles this morning to attend the Southern California Teachers' Association now in session there.

H. R. Bristol and Miss Marian Bristol spent today in Los Angeles.

Miss Rosa Boyd was a visitor to Los Angeles this forenoon.

Miss Elizabeth Willard was an early morning passenger to the Angel City, going up to the city to enjoy the proceedings of the Southern California Teachers' Association.

Mrs. Will G. Mitchell of Tustin was a traveler to Los Angeles this morning.

Prof. and Mrs. Collins of the Commercial High School visited Los Angeles today.

Miss Linda Paul swelled the list of teachers going to Los Angeles today to join the Teachers' Association now convening there.

Miss Ada West attended the Teachers' Association of Southern California teachers being held in Los Angeles, going to the city early this morning.

Alan A. Revill went to Pomona today to attend to professional duties, still having a class in music in that city.

Howard Hankey was expected home today after completing a tour of Southern California as pianist for the Pomona College Glee Club in a concert trip.

We will be open Monday with good supply of Christmas oysters. Leave your orders anytime.

### HOUSEHOLD HINTS

#### One Day's Menu

BREAKFAST  
Stewed Prunes and Cream  
Ked Sausage  
Griddle Cakes and Syrup  
Coffee  
LUNCHEON  
Spanish Omelet  
French Rolls  
Chocolate Cake  
DINNER  
Baked Stuffed Veal  
ashed Potato Mash  
Tomato Jelly Salad  
Cottage Pudding

#### Baltimore Kisses

The whites of four eggs, one-half pound of granulated sugar, essence of lemon. Beat eggs to a high, firm oth, stir in the sugar, flavor with mon or rose, continue to beat until very light; then drop a tablespoon of the mixture at intervals of one ch on well buttered paper. Lay e paper on half-inch boards and in slow oven; bake one hour, watching carefully, and as soon as they begin to look yellowish take them out, r beat to a stiff froth the whites of wo eggs, stirring into them very radually two teaspoons powder d sugar and two tablespoons cornstarch; bake on buttered tins fifteen minutes in warm oven, until slight brown. Add any desired flavor efore putting in oven.

#### Scotch Woodcock

Two hard-boiled eggs, one tablespoon butter, two teaspoons anchovy auge. Chop the eggs fine; melt the utter in a saucepan and put in the eggs and sauce. Arrange small quares or rounds of toast, well buttered, on a plate. Pour over the sauce hen dissolved and place for a few minutes over hot water.

#### Kitchen Helps

If the cake flavoring has been forgotten when making the batter try sprinkling the required amount over ie cake as it stands in the pan before baking.  
Cold boiled potatoes, diced and added to an equal quantity of canned ilmon and a few chopped olives take a foundation for a tasty salad. erve with mayonnaise.  
A little pinch of soda should be added to all kinds of custard and hey will not whey so easily; if hot ilk is called for in a recipe with eggs remember that it must be poured over the eggs instead of stirring he eggs into the milk, or they will e found cooked in little strings, or ave a curdled appearance. This rule is reversed, however, when soup s made of eggs and milk, where the stringy appearance is desirable.

#### Fillet of Veal Roasted

Remove the bone and fill the space with a nice dressing. Fasten it together with skewers and wrap well with a string. Rub it with butter, salt and flour. Put into a pan in which is a little boiling water and bake. Let the fire be very hot at first, but at the end of thirty minutes only moderate heat will be needed. Baste often and allow twenty minutes to the pound. When done take out the roast, add a little lemon juice, pepper, salt and flour to make

a smooth, thick gravy. Strain and serve with meat. Serve with peas or tomatoes.

#### Buttercup Pudding

One quart of sweet milk, one-half cup cornstarch, three yolks of eggs, two tablespoons sugar, one tablespoon butter. Mix the cornstarch smooth in a little of the milk; put the rest in a custard kettle and heat, add the cornstarch, the beaten eggs, sugar and butter. Boil five minutes and turn into small cups wet in cold water. When cold turn out on a plate and serve with sweet cream flavored and sweetened to taste.

#### Cheese Pudding

Four tablespoons fine bread crumbs, two eggs, four tablespoons grated cheese, butter size of walnut, mustard, pepper and salt to taste. Butter a deep pie dish and put in all the ingredients except the eggs; then beat the yolks of eggs in a small cup of milk, add the white beaten to a froth, pour this over the crumbs and bake in a hot oven for twenty minutes.

#### Egg Gems

One cup chopped cold meat, one tablespoon melted butter, one cup bread crumbs, salt and pepper and eggs. Mix together the meat and bread crumbs, add the butter, pepper and salt, and enough milk to bind it together nicely. Have gem pans well greased and fill with mixture; break an egg carefully on the top of each; season with salt and pepper, and sprinkle with cracker crumbs; bake eight minutes.

#### Woman Stonecutter

Miss Agatha Troy of Utica, N. Y., is said to be the only woman in this country who is a professional stonecutter. She acts as her father's assistant as a granite and marble cutter. She is Sicilian by birth, and though less than five feet high, is said to be able to handle a five pound hammer with the ease and skill of any of the young men employed in her father's yard.

#### Value of the Hands

Twenty thousand dollars for the boy who lost both hands—the reward just sustained by the New Jersey courts—is little enough.

It is about all that most persons with two hands can do to earn a living at manual labor in these days of high rents and high prices. There are few trades open to a man handicapped by the loss of one hand. For him who is without hands there is forever no opportunity, no outlook.

More than this, the handless man must all his life have attendance. He cannot dress himself. He cannot feed himself. The most intricate artificial hands can never perform a tenth of the services rendered by nature's excellent implements. He is cut off, too, from participation in most forms of pleasurable and beneficial physical exercises and enjoyments.

The decision is especially noteworthy as a new mark in the apparently increasing appreciation that courts and juries all over the country are showing as to the handicap of physical disability.

### DUCHESS D'AOSTA ROBBED

Cousin of King of Italy Suffers Loss of \$278,000 in Jewels and Cash

GENEVA, Dec. 22.—It is rumored that the Duchess d'Aosta, cousin of the King of Italy, has been robbed of jewels, money and coupons valued at \$278,000.

A young Italian couple suspected of having committed the crime have been arrested at one of the principal hotels at Montreaux, where they were tracked by detectives. The couple afterwards were conveyed to Mornet prison at Lausanne, pending the extradition formalities.

### PEACH ORCHARDS COMING TO FRONT—TWO ARE SOLD

ONTARIO, Dec. 22.—Two young peach orchards in the dry ranch district east and south of this city were sold yesterday to newcomers from the east. J. Burglingame purchased the P. E. Walline peach orchard of twenty acres on East Sixth street for \$6150. This orchard is known as one of the banner peach orchards of this section. G. R. Emmons and F. L. Purdy purchased the M. W. Smith peach orchard of fifteen and one-half acres, paying \$4000.

### ARNOLDS GIVE UP HUNT FOR THEIR LOST DAUGHTER

NEW YORK, Dec. 22.—The report from Norfolk that Dorothy Arnold is in a rescue mission there is not given credence by the girl's parents. They still believe their daughter is dead and have stopped investigating the many rumors that reach them.

Katherine Stanley of a Norfolk rescue mission greatly resembles Miss Arnold, and this probably led to the report.

### "TAMA JIM'S" FIELD MEN INOCULATED AGAINST TYPHOID

WASHINGTON, Dec. 22.—Typhoid inoculation is to be introduced, by official order, among the field forces of the Department of Agriculture. This is the first time on record a civil department of the government has taken such a step. The inoculation is not compulsory, but is recommended because of the ravages of typhoid in the force.

### SHERMAN WISHES TO RETIRE FROM POLITICS IN 1913

WASHINGTON, Dec. 22.—Subsequent to a call at the White House today by Vice President Sherman, wide credence was given to a report that Mr. Sherman does not desire to be the Republican candidate for governor of New York.

It further was reported, apparently on the highest authority, that unless his party desired him to run again for the vice presidency, he would retire from politics March 4, 1913.

## AT THE COURT HOUSE

WOULD ENJOIN  
SCHOOL BOARD

Chapman and Brown Allege  
Fullerton High School Site  
Cannot be Changed

Complaint States Proceedings  
Irregular—Restraining  
Order Asked

An injunction suit was begun in the superior court today by C. C. Chapman and W. T. Brown, as taxpayers against L. P. Drake, W. J. Travers, L. B. Steward and J. W. Newell as members of the board of trustees of the Fullerton Union High School district. The complaint, which is filed by Attorneys Head & Marks, states that the school board proposes to change the site of the high school to a place about a mile from the present site, there to erect new buildings.

The plaintiffs assert that the removal of site proceedings are irregular, and the court is asked to enjoin the school board from carrying out its plans.

## Allege Misconduct

This morning when William Breeding and Mrs. Nina B. Croft, convicted on Tuesday of high misdemeanor, came up before Judge West for sentence, their attorneys moved for a new trial on the ground of misconduct on the part of the jury. The attorneys stated that after the jury retired just before noon the members separated without permission of the judge. Attorney Hoodentyl of Long Beach stated that he was informed that as the jury started from the courthouse, eight of them stood in the corridor while four others went to telephones, that at the cafeteria they were allowed to separate, four of the jurors eating at tables with persons not on the jury, that the jurors got out of line going to or from dinner. Hoodentyl stated that he wanted to examine some of the jurors on the point of his contention, and for the purpose of allowing subpoenas to be issued Judge West set Dec. 27 at 9:30 o'clock as the time of hearing.

Breeding and the woman were convicted of living together without having been married. Two or three years ago Breeding's former wife sued for and secured a divorce from Breeding. At the present time there is pending an action for divorce brought by B. C. Croft, a Los Angeles policeman, against Nina B. Croft.

## Marriage Licenses

Richard W. Stine, 22, of Glendale, and Vernice Gilkey, 21, of Los Angeles.

George W. Dollard, 28, and Lillian B. Hoffman, 22, both of Santa Ana; John J. Garce, 44, of Placentia, and Ella C. Cooper, 38, of Los Angeles.

## Records Homestead

Yesterday a declaration of homestead was recorded by John P. Meinhardt on property in section 8, township 5 south, range 19 west, value \$8000.

## IN THE JUSTICE'S COURT

CASE CONTINUED  
TO JANUARY 11TH

Attorney Requested That Preliminary Examination  
Go Over

George Kuechel Is Again Going  
to Take Case to Superior  
Court

This morning when Justice Cox called the preliminary examination of James Seeley on a charge of assault with a deadly weapon, the hearing was continued until January 11. This was done at the request of Attorney F. O. Daniel. Seeley is charged with an attack upon Gillespie, who rented a house from Seeley's mother.

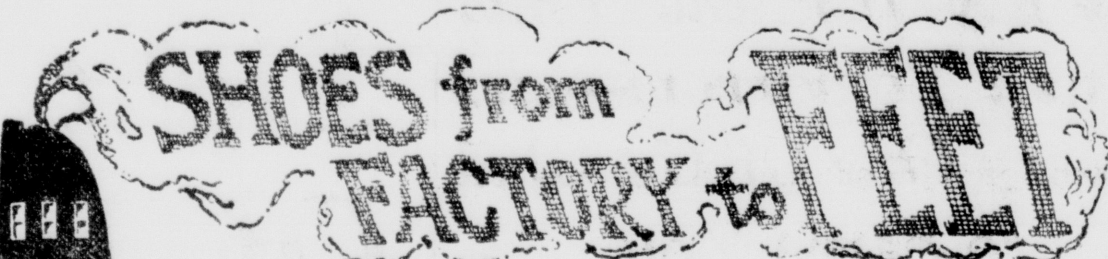

## To Appeal Case

Attorney S. M. Davis has given notice of appeal in the case of the Santa Ana Artificial Stone Co. against George Kuechel, a contractor. Judgment was given against Kuechel for \$85. This case has already been once taken to the superior court and twice tried in the justice's court.

Just a few days more, and the Biggest Sale Orange County has ever seen, will have passed into history. Just a few days more, and the most tremendous bargain opportunities even Reinhaus Bros. have ever presented to you, will be gone. Take advantage NOW. If you're an old customer, you know just how thoroughly well you can rely on our every word. If you have not traded here in the past, this is the very best time to get acquainted. Come in and give us the opportunity of adding yours to the long list of satisfied friends and customers, just such Sales as this have made for us in the past.

## Cut Prices in the Drapery Department

You might think that draperies were not among the lines of goods on which even Reinhaus Brothers would cut prices at this season of the year. But we believe in cutting prices when a thing is most wanted. That's why you can today and all during this sale save money in this section, as well as in all the others.

Art Cretonnes in a multitude of fancy figures and of qualities that can be depended on. Just what you have been looking for and just what you want at this season of the year. Every price is a cut one. Good grades at 13½c, 11½c and .....7½c

Art Denim in a multitude of colors and almost endless variety of figures. A decided selection of patterns and wide range of effects. Regular 20c and 25c grades now at 16½c and .....13½c

ALL  
FURS  
1/4  
OFF

Silkolines—You will wonder how we can possibly afford to sell such grades at the very small prices we shall here quote. Good for draping as well as for lining of comforters and general fancy work. See these snaps at 7½c 11½c and .....7½c

Curtain Etamines that will wear as long as you could possibly wish for. These etamines in the shades we carry are among the most popular materials of the season. The width, the weave, the colors and the prices are right. Now at 22c, 18c and .....11½c

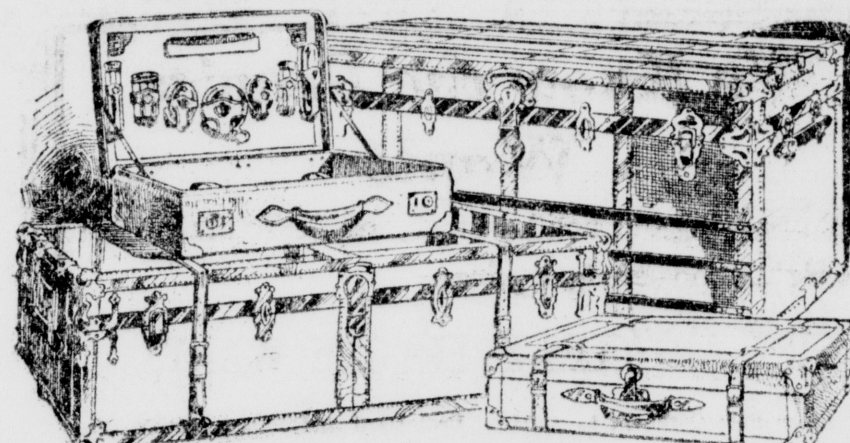

36-inch Curtain Swiss of the quality that would ordinarily sell anywhere in Orange county at 20c per yard and be considered a bargain, yet here it is and all we ask is .....11½c

Such Couch Covers, Table Covers and Portieres as we are showing at reduced prices you have never found assembled in any one store. Just think of these snaps coming just before Christmas, too. Here's a double opportunity. Buy one for yourself at so low a price that you can well afford to give away another.

Curtain Scrim offered here at two prices and at such reductions as readily mark a bargain, at either price. See the qualities we are offering at 8 13c and .....5½c

Fish Net—This is one of the simplest, yet one of the most artistic and assuredly one of the most popular drapery materials that has been offered anywhere in the United States this season. Fish net makes pretty overdrapes as well as straight curtains. Now at 22c .....18c

Stylish Bungalow Net—Another offering which should rather be increased in price than reduced for the demand is so great that the few mills which turn out this net in good style at popular prices are overcrowded with orders. But we have gotten hold of a certain quantity of such pieces that we can offer it at only .....18c

## Suit Cases and Trunks

Never was there such an opportunity to buy any kind of Suit Cases, Trunks or Valises, etc., at such reductions so shortly before Christmas season. Every piece of leather goods in our stock of durable construction and thoroughly dependable in every way.

## Hansen's Gloves

For wearing qualities, for sturdy gloves, for guaranteed gloves, for union-made gloves, Hansen's gloves have no peer.

We carry them in all various grades and kinds wanted and each price will be found a ROCK BOTTOM PRICE.

## MRS. HEARST GIVES ANTIQUITIES TO STATE UNIVERSITY

BERKELEY, Dec. 22.—A rare collection of antiquities has been presented to the University of California by Mrs. Phoebe A. Hearst, whose generous financial aid has done so much for the state institution in recent years. This collection, which will soon be on display in the university library, consists of ancient manuscripts in Latin, Old French, Armenian, Persian and Arabic, and printed books dating from the sixteenth century, morocco bound and brass clasped.

## DERRICK TOWER WAS THROWN OVER

Orange News: The tall derrick tower, temporarily erected over the new Campbell building was swept away this morning by the force of the Santa Ana wind, falling fortunately without injury to anyone, although a number of men were at work on the new block. The tower crashed through a rear brick wall, which was partly completed, and which was damaged by the wreckage. All the workmen were stationed to the windward side,

the tower falling away from them. A new tower was started this afternoon to replace the other.

A. F. Clarke of the Riverside Press staff visited Orange today. He is engaged in compiling an estimate of the Southern California orange crop for this year. He talked with fruit men on the probable amount of the local crop.

## IS PREPARING FOR MONTHLY MEETING

HUNTINGTON BEACH, Dec. 22.—The following letter has been sent to the various bodies forming the Associated Chambers of Commerce of Orange county:

"Dear Sirs:—The next monthly banquet and business meeting of the Orange County Associated Chambers of Commerce will be held here at the Huntington Inn on Wednesday evening, Dec. 27, 1911. It is very necessary that you give us timely notice of the

probable number who will attend from your city.

"Respectfully,  
"LOUIS PAUL HART,  
"Sec'y, Board of Trade."

## WISCONSIN MAY

## LOSE DELEGATES TO

## G. O. P. CONVENTION

MADISON, Wis., Dec. 22.—Constitution reigns in political circles here over the discovery of a technicality in the reapportionment act which threatens the rejection of Wisconsin delegates to the national party convention.

The Wisconsin primary is to be held on Tuesday, April 2, and the latest day on which names may be

submitted to the county clerks to make up the ballots is March 19. It is therefore necessary to certify the names, according to the old congressional district, as outlined prior to the passage of the new apportionment act. On April 1, one day prior to the election for delegates, the new apportionment act goes into effect. The delegates to the national convention chosen under the old law might be held as irregular, as the new law went into effect before the vote actually was cast.

—Car of northern short white Burbank seed potatoes in stock at \$1.50 cwt.; also White and Red Rose seed potatoes for sale by Prince Grain & Milling Co.

Week. McNamaras' Mother  
Reported Dying

INDIANAPOLIS, Dec. 22.—The Federal grand jury which has been investigating an alleged country-wide conspiracy of dynamiters of whom the McNamaras are said to have been the working heads, will adjourn late today until January 2.

### MOTHER OF THE McNAMARAS IS REPORTED AS DYING

CINCINNATI, Dec. 22.—Stricken to the heart by the wholesale confession of murders by her two sons, Mrs. McNamara, the gray-haired mother of James and John McNamara, is reported as dying at her home here today.

"The blow when her boys confessed struck Mrs. McNamara to the heart," declared Rev. Hickey, the dying mother's pastor. "It will be a wonder if she survives long. I know how many years she worked over the wash tub that her boys might be reared in the right way."

### LOS ANGELES DYNAMITE PROBE OFF TILL DEC. 27

LOS ANGELES, Dec. 22.—After hearing the testimony of a single witness, a well-dressed stranger who refused to disclose his identity, the Federal grand jury, probing the alleged dynamite conspiracies, adjourned at 10:15 this morning until next Wednesday morning, December 27.

## WORKS OPPOSED TO NAMING OF RALSTON

Says Sub-Treasurer of Frisco  
Is an "Old Guard" Man and  
Opposed Johnson

WASHINGTON, Dec. 22.—Senator Works is still insuring when it comes to the indorsement of candidates for federal offices. The first serious disagreement this session between the two senators from California was when the senior senator wished to have Sub-Treasurer W. C. Ralston at San Francisco reappointed Ralston's term expires in January and he has secured the indorsement of nearly all of the banks in San Francisco, for reappointment. The salary is \$4050, and the bond is a very large one, but the office is one of the choices in the gift of the government on the coast, and there are many willing candidates among the patriotic party workers who would assume the responsibility and the work in order to draw the salary and enjoy the prestige. Senator Perkins has declined to join with Senator Perkins in recommending Ralston's reappointment because the latter has been too much of an old guard partisan, and because he was bitterly opposed to the election of Gov. Johnson.

### Save money at Wingood's Sat. Suffrage Movement Grows

Whatever one may think of the suffrage movement, there's no denying that it is gathering force. Next year at least half a million women will be qualified to vote for president. That is more than the usual presidential plurality, and if these women voted solidly they might decide the presidency. It is almost equal to the total vote for Andrew Jackson in 1824. It is as many women as there were in the whole thirteen original colonies at the time of the revolution. The United States now has one-third of the woman voters of the world, the remaining two-thirds being chiefly in Australia, New Zealand, Finland and Norway. And the fraction will probably grow pretty fast from now on, in spite of the efforts of scornful men and hos the women.—Boston Traveller.

## THE HUMAN SKIN.

Changes In Its Hues That Have  
Come With the Ages.

### COLOR A MATTER OF CLIMATE.

Man's Original Shade Is Believed to  
Have Been a Brownish Yellow—The  
Same Forces That Made Men White,  
Black and Yellow Still Operating.

Man's original color and the cause of the changes in that color to the various hues that mark the skins of the different races have long been a study among men of science.

The theory of Professor Lionel Lyde, an English scientist, is that, whatever the color of primitive man in the beginning, the conditions of life during the glacial period were such that uniformity of results must have been produced. Nearly every anthropologist is ready to admit now a common origin for all mankind. Where man originated is not known—very likely in southern Asia, possibly in Africa, certainly not in Europe, they say. His original color is supposed to have been a sort of brownish yellow not like any of the colors of mankind today, and scientists call him, for the sake of calling him something, a Condwana.

He lived in southern latitudes. This, they think, is certain. Then came migrations, and then, Professor Lyde believes, the variations of color began. Some turned white, some turned black, some brown and some yellow, all according to the climate in which they found themselves.

Climate influences worked directly and indirectly. In the tropics the skin and the intestines perform work which in temperate zones is thrown on the lungs. So when man found himself in cooler lands the increased activity of the lungs, together with the lessened light and heat, favored lightening of the skin. When he found himself in hotter climates the increased activity of the liver and the presence of great light favored a dark skin.

The old theories of race are pretty well discarded, for men of the same race, under differing conditions, would come to be outwardly very different. Thus even in Africa, which everybody thinks of as the land of blacks, black is not at all the universal color. In the Sudan, where there are great light and little humidity and no shade, the men are very black. Elsewhere in Africa, where there are forest, more humidity and less light, though about equal heat, the color is brown and even yellow.

As primitive man went on his way over the globe he adapted himself to the conditions he found. Professor Lyde thinks that it is light and not heat which is injurious. There are in the tropics dangerous X-like rays which must be stopped, and they were stopped by the darkening of the skin. Since lack of moisture also tends to give a tawny color, it is found that in rainy countries the people are fairer than in places where there are long and frequent droughts.

The race, then, that found a home in moderate and damp climates turned whiter and whiter. It is only in such climates that white skins can endure, and presumably, if the present white race was turned into a different part of the world for many hundreds of years, the whiteness of skin would gradually be lost. Perhaps, since the white man is spreading over the world today, it would be fair to say it will in such cases, be lost, the whiteness being retained only in climates that have the conditions under which the race was first bleached.

Intensity of light and little humidity made black. Trade winds and little humidity gave the tinge of brown to the subtropical Mediterranean people. Then comes yellow, which Professor Lyde puts down as the result of "vast desiccating grass lands" in temperate latitudes.

The yellow man is the product of the grass lands, with lack of humidity and seasonal extremes of temperature. The color a man exposed to such conditions would naturally take would be one which conserves heat nearly as well as white, but which also protects from light, for which combination yellow was the best, or red. The normal color of these folk of the grass lands would be changed by special local conditions, such as the presence of mountains or proximity to the sea. The mountaineers of Asia and the maritime Mongolians are lighter in color than their brothers of the inland plains.

To Professor Lyde, therefore, skin color is entirely a matter of climate. It is a well established phenomenon now because the different portions of the human race lived segregated for thousands of years in special areas, but the same forces that made men white and black and yellow are operating today, slowly, but surely. Men who change their dwelling places will still, after hundreds of generations, change also their skins as they did in the epoch of the first migrations.—New York Times.

Not Consistent.  
"You are very foolish, Mary, to think of getting married. If you will give up the idea I will raise your wages a dollar a week."

"Huh—a dollar a week? That's a fine argument against marriage to be put up by a lady that's drawn \$900 a month alimony."—Judge.

## FIRST AEROPLANE WIRELESS SERVICE

Aerograms Will Be Sent From  
Air By Parmalee at Meet  
at Dominguez

LOS ANGELES, Dec. 22.—The first aeroplane wireless telegraph service ever established in the world will be inaugurated during the international aviation meet at Dominguez Park, January 29 to 28. Aerograms will be received at an office near the grand stand and given to a wireless operator and aviator who will carry the written messages to the clouds and then transmit them by wireless instruments to the Los Angeles office of a telegraph company.

The messages will then be relayed by wires to their destination, but will bear the initial point of sending, which will be supplied by the aviator, according to the altitude and position from which the message is sent.

Telegraphing from the air has been done only three times in the United States. Phil O. Parmalee, the Wright aviator, who is here to participate in the Dominguez meet, is the aviator who operated the wireless instrument in all three instances.

### ALASKA MUST HAVE FEDERAL CONTROL SAYS WICKERSHAM

ST. PAUL, Minn., Dec. 22.—"Federal control," James Wickersham, delegate to congress from Alaska, said here yesterday, "is the only salvation of Alaska." Mr. Wickersham, who is on his way to Washington, spoke before the Current Topics Club.

"As things are now," Mr. Wickersham added, "the Gubghenheim-Moran interests control not only the territory, but the real seat of territorial government, which is in Washington. Mr. Wickersham said the act drawn by Gifford Pinchot and James R. Gage was about the only saving legislation that had ever been enacted for the territory. He criticised the leasing plan as dangerous and as a move to tighten the grip of the "interests" on the resources of that country.

### IMPORTANT ADMISSIONS IN TRIAL OF PACKERS

CHICAGO, Dec. 22.—Developments in yesterday's trial of the beef packers were important, it is believed, to the prosecution. One of the developments was the giving of the details of how E. H. Harriman and Kahn, Jacob & Co. failed to furnish \$900,000, and live up to an agreement in 1902, which was to have given the Armour, Swift and Morris interests absolute control of practically all the packing industry in America.

## WOODROW WILSON'S PENSION APPEAL

Many Will Use His Application  
Against Him in Field  
of Politics

(From the Independent)

We do not see but that President Woodrow Wilson, on leaving Princeton University, had the right to ask the Carnegie Foundation for a pension, if he was entitled to it. He had served as a teacher for twenty-five years, the period which, under the earlier rules of the foundation, would give a claim for such pension. But meanwhile the

rules had been changed in such a way that he would not be automatically entitled to it, and we judge that the trustees did not think him in financial need. When he made application, at the age of fifty-four, he had just entered upon the doubtful career of politics, but when he had been elected Governor of New Jersey his financial support was provided for by the state, and there seemed no present need to make provision for his support. The purpose of this admirable foundation is to provide support in their old age for teachers who have spent their active life and exhausted their powers in a profession of the highest value to the community, but of very moderate compensation. A majority of college professors cannot live within their salaries. President Wilson had accumulated no property and cannot be blamed for making application, but the fact that he did so may be used against him by those who take advantage of any pre-

### EL CENTRO TO HAVE NEW POSTOFFICE QUARTERS

EL CENTRO, Dec. 22.—By the first of April El Centro is to have new and adequate postoffice quarters in a building to be erected by Thomas J. Douglass of Los Angeles on lots adjoining the present post office, on the north side of Main street, west of Sixth. Mr. Douglass is to erect the building and furnish the complete equipment of fixtures including facilities for the postal savings bank that is to be established at this office. He leases the quarters to the postoffice department for a term of ten years at a rental of \$1000 per year.

# A GIFT of GOOD FURNITURE

Will give lasting pleasure. But the furniture must be good. The place where good, reliable furniture can always be had is at Lane's Furniture Store, 303-305 West Fourth St.

It's the substantial, practical things, not the sentimental ones, that are most appreciated as gifts—a piece of furniture for instance. Most everyone likes to receive gifts that will afford some real usefulness. Many things are purely ornamental. Many others are pure luxuries. Many things serve their purpose but a little while, and are soon forgotten. A gift of furniture, however, has none of the lacking qualities, while possessing all of the desirable essentials. An article of furniture is useful—and in almost all cases, ornamental, as well.

WE GIVE YOU A SPLENDID ASSORTMENT TO SELECT FROM, AT VERY MODERATE PRICES.

### BEDROOM FURNITURE

In Birdseye Maple, Circassian walnut, curly birch, mahogany and all finishes of oak.

# ALL TO PASS DOLLAR RATE

Orange, Anaheim and Fullerton  
to Take Concerted  
Action

ORANGE, Dec. 22.—At the meeting of the city trustees of Orange, Anaheim and Fullerton at Anaheim last night, it was agreed that all three cities should immediately proceed to pass ordinances fixing their gas rates at \$1 per 1000 cubic feet. If the Southern Counties Gas Co. wants to fight the ordinances, the three cities will stand together in whatever tests may be brought. The trustees contend that their cities are entitled to the same rate as Santa Ana, served from the same plant.

Fullerton and Anaheim trustees expressed considerable dissatisfaction. As a recommendation to the gas company, a resolution was passed asking that an inspector be appointed for these three towns.

Decorated China Chocolate Sets at \$3.50 and up at the American Tea Co., 215 East Fourth St.

## LIZARD MOUNTAIN, COLO., LOSES ITS ENTIRE TOP

TELLURIDE, Colo., Dec. 22.—Millions of tons of earth and rock tumbled down the side of Lizard mountain today when the entire top of that giant peak literally toppled over. The site of the avalanche is 180 miles from Denver on the Denver & Rio Grande railroad. The mountain was one of the sharpest pointed in the entire San Juan region.

The peak was 14,160 feet high. The crash greatly alarmed residents of the vicinity, who thought it was an earthquake. The fall shook the country for miles. So far as is known nobody was killed or injured, there being few mines on that mountain.

It is estimated that fully 1000 feet fell from the top of the mountain.

**Deafness Cannot Be Cured**  
By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.  
P. J. CHENEY & CO., Toledo, O.  
Sold by Druggists, 75c.  
Take Hall's Family Pills for constipation.

# The Day and the Spirit

(From the California Outlook)

Some nineteen hundred years ago, on a day which tradition says was the 25th of December, there was born among a lowly people of the East the greatest soul that the world has ever known, a soul so pure and true and noble that its divine origin has been accepted as a basis of the chief religion of civilized peoples.

Naturally the birthday of this wonderful being came to be celebrated. The great church that was organized to spread his teachings over the world gave its most reverential ceremony in honor of that day, and this mass was called Christ's Mass, and we have the word Christmas.

This great holiday of the church became chief among the holidays celebrated by the people. During the half-barbarous period of the Middle Ages the celebrations were crude and boisterous, but as the race grew more refined, the true nature of the holiday became more apparent, and the thought that the custom of the day should typify the character and lesson of the Master was born. What was the thought that underlay that character and that lesson? Sacrifice, service, doing good to others—in short, giving.

Thus it came to pass that the day that commemorates the birth of the One who Gave is symbolized by gifts. In a species of beautiful self-abnegation parents have, time out of mind, hidden their giving behind a mythical Santa Claus. It is an effort to make the act less personal and to free it from the selfish hope of recompense, even that of gratitude.

It is in the true spirit of the one for whom the day is named that we give to children and we give to those that are less fortunate than ourselves, and we may even give small remembrances, tokens of thought, to those we love who are neither children nor yet in need. But that is all. To use the day to make presents in the hope of gaining favor, or to pay off social or business obligations, is to profane a sacred rite. Those that do these things are the money changers in the temple. It is not true, however, as people sometimes declare in thoughtless anger, that these practices are ruining the day. It cannot be ruined; it cannot even be permanently injured—this celebration that is founded on the greatest truth of human life, and whose significance touches all that is best in mankind. There are signs that the tendency to misuse the day has about reached its limit. The true spirit of unselfish giving is coming back and is stronger and broader than ever. In all our cities now there are organized movements to bring Christmas home to every child, and a systematic effort is made to reach each little one and give him or her the great thrill to which childhood is entitled. If Santa Claus is more sophisticated, he is also a good deal more just. In this field there is unlimited scope for the true spirit of giving. This is the very work for which the day came into existence.

## SHeldon AND ROOSEVELT DENY HARRIMAN CAMPAIGN STORY

NEW YORK, Dec. 22.—In view of the long-continued talk about contributions of millionaires to the Roosevelt campaign fund of 1904, which was started by Alton B. Parker's charges on the eve of election, George E. Sheldon, treasurer of the Republican national committee, in a letter to Roosevelt, denies that Theodore Roosevelt ever asked E. H. Harriman to contribute money to aid him in his election in 1904, or that Harriman raised and contributed \$250,000 to the national committee fund. Sheldon says he seems it only justice to make this public statement. He says that Higgins was in danger of being defeated as governor of New York and that Harriman raised and handed to Mr. Bliss \$100,000, to aid in the state election. Mr. Bliss himself raised \$80,000. This money was all sent to Chairman Odell and never in any way went into the national committee treasury.

Col. Roosevelt adds his emphatic denial in the following words: "I never, directly or indirectly, in any shape, way or form, asked Mr. Harriman or anybody else to contribute a dollar to aid in my election. Moreover, on the only occasion on which Mr. Harriman ever spoke to me on the subject at all he did so of his own initiative, and so far from there being any request from me to him, he made to me the request that I would aid him in getting the national committee to contribute some of its funds for the campaign expenses of Mr. Higgins, the candidate for governor in New York state."

## BULGARIA WOULD START BALKAN WAR

Wishes to Throw Off Turkish  
Yoke—Thinks Present Is  
Opportune Time

CONSTANTINOPLE, Dec. 22.—That Bulgaria is seeking to start a war in the Balkan states, is the current belief in political circles here today, as a result of the tracing a long series of dynamite explosions in Macedonia to Bulgarian origin, through recent public threats to renew terrorist activities on the part of Bulgarian bands with headquarters in Venidje Carda. Although Bulgaria is nominally a free country, as regards foreign affairs at least, she is under the domination of Turkey and has long been desirous of throwing off this yoke. With her splendid standing army of 200,000 declared by experts to be one of the finest in the world from the standpoint of training and physique; with Turkey at war with Italy and on uncertain terms with Austria, as well as being harassed over her interests in far-away Persia, the present is the most opportune time for a Bulgarian demonstration against the Ottoman empire.

**FRANCE TO OFFER PEACE**  
BUST TO UNITED STATES  
PARIS, Dec. 22.—On the initiative of the French embassy at Washington, the French-American committee has opened a subscription list for the purchase of a bronze bust representing France, which it is proposed to offer to the United States. The bust is by the famous sculptor Rodin and has just been finished. It is proposed to place it at the foot of the monumental lighthouse being erected to the memory of Samuel de Champlain beside the American lake which bears his name. The committee wishes thus to give evidence of its affectionate gratitude for the friendly manifestations of the United States toward France.

**LIMIT ON SAVINGS**  
BANK DEPOSITS TO  
BE REMOVED SOON  
WASHINGTON, Dec. 22.—The \$500 limit on postal savings bank deposits will be removed in the near future, according to statements at the Postoffice Department yesterday. This limit already has been reached by many depositors, and the bank trustees have been urged to permit deposits without any limitation whatever as to the amount.

Special for  
Saturday Only
